This week: 10 to 17 October 2026

Kept short on purpose. Three things at the top; everything else waits. Updated by Claude as things get done.

Top 3

1. **Mukesh (YC co-founder matching):** reply in the YC thread and book the call (Sunday 11 Oct, or early next week). Have your 5-line story ready: the problem, the product, the loop, who's using it, what you need in a co-founder.
2. **Trade mark UK00004458000:** watch your email (and spam) for the IPO examination report. Pay the balance within **28 days of the date on the report**. Diary it the day it arrives.
3. **Test the two things I could not check on screen:**
   - the green "Click to speak your answer" button in the **full interview room, on your phone**;
   - the **"Your path to a pass" card** on a full interview summary (and "last time to now" on a second interview for the same role).

Waiting on someone else

What	From	Then
New WhatsApp number switched on	You	I add it to the LinkedIn banners, the WhatsApp cover and the Contact page (it still shows +44-(0)7515-112345)
IPO examination report	UK IPO	Pay the balance (about half of £370) within 28 days
Reply to the direct message about interview coaches	Amney Mounir (sent 10 Oct)	Nothing to do until he replies
Specialist introduction, plus a screenshot of her search	Chinaza (optional)	Add the screenshot to the evidence folder
Permission to quote his CV-analysis reaction	Clifford (optional)	I can put the quote on the CV page

Quick checks (a few minutes each)

- ☐ **Safari check (new, 11 Oct):** run the demo on a Mac in Safari (or ask someone with one): you should see "Click to meet" on the interviewer, and after clicking it the voice should start. I could only test this with unit tests, not real Safari.
- ☐ **Activity Log:** after the deploy, the 🏢 network badge and 🤖 "Automated?" label show on the right rows.
- ☐ **CV analyser page, live:** the example (your own analysis) shows and the upload still works.
- ☐ **Evidence folder:** save the IPO certificate PDF, the confirmation screen, and a dated screenshot of the App Store and UK/TMview/USPTO searches.
- ☐ **ICO data protection fee:** confirm you're registered as a sole trader (the privacy policy now names you).
- ☐ **Investor deck (fp.html)** still says "Percentile One Ltd": decide whether to change it.

Mine, when you say go

- [ ] Sweep the app's emails, terms and receipts for "Percentile One Ltd" and change them to match.
- [ ] Re-measure CV analyses against page visits on about **17 Oct** (baseline: 1 analysis, 15 visits in 10 days).
- [ ] Paywall: a one-page brief on turning enforcement on (what it would block, what stays free).
- [ ] Draft the follow-up message to Fadi at Spatius (regions, speed, batch rendering). You send it.

Later (not this week)

- Re-record Catherine's greeting (the recorder now brings the face window into view).
- Phone test of the full room with `?force=spatius`.
- Refresh the stale Amina and Wayne copy on the later login-page slides.
- "Learn in any language" plan.
- Class 9 (mobile app) trade mark application; a second application for job-board wording, if wanted.

Done this week

- **Interview:** big green "Click to speak your answer" button on the interviewer (demo and full interview); model answer failures fixed with retries and logging.
- **Results:** "Your path to a pass" card (weak areas, Learn, interview again, last time to now) on the demo results and the full interview summary.
- **CV analyser page:** real example added, "we don't save your CV" line, scroll-depth tracking fixed.
- **Admin:** Activity Log shows the network owner and an "Automated?" label.
- **Brand:** WhatsApp profile and cover, four LinkedIn banners, ™ across the site and portal.
- **Legal:** trade mark filed (THE INTERVIEW CHAIR, classes 35, 41, 42, Right Start); privacy policy and footers now say "Francis Cobbinah, trading as TheInterviewChair.com".
